.....
THE NEXT MEETING WILL BE HELD ON FRIDAY APRIL 28TH AT THE COMMUNITY HALL ON THE CORNER OF TODDS RD AND ELLIS RD, LAWNTON COMMENCING AT 8PM.
.....

THE NEXT WORKING BEES WILL BE ON SUNDAYS 7TH MAY AND 4TH JUNE STARTING AT 8AM. Thanks to all the members who mucked in at the last working bee – we got a lot done, Thanks specially to Dave Andersen and Jim Fagan for getting the Bolens ride-on mower back into service, so Bob can keep on mowing!
.....

Our last meeting was the first of our 'social' nights, and featured demos of the different aspects of electric flight

Also at the last meeting we welcomed no less than ten new members! They are: Stephen Lightowler, Matthew Dunnell, Leslie Murphy, David Smith, James Price, Luke Millikin, Steven Millikin, Peter Ederle, Robin Barnes and David Martin. Welcome to all of you! This brings our membership up to 222 according to my mailing list....the highest ever I believe.

This month's meeting will be another social night, so please bring along your latest creations so that we can all admire them! There is another attraction on that night – electric indoor flying at the Brendale Gymnasium at the South Pine Sports Complex, South Pine Rd., Brendale, starting at 7.30pm. This is the opening stanza of our great electric flight weekend, as Saturday and Sunday are electric only days at the field, for the S & B 4th Annual Fly-In! See the flier on the back of this newsletter – don't bother turning up with your glow model until Monday (which is a public holiday here in Qld..) but do come along and see the revolution that is happening in electric flight with the advent of lipoly batteries and brushless motors – I can guarantee that it will blow you away!

What will blow our visiting campers away will be our five star shower cubicle! Thanks to all the members who have helped get this long-running project finished in time!

The club-room is also taking shape, with everyone seemingly enjoying the cold drinks for \$1 a can! We also have a great new table out front thanks to the efforts of Jim Fagan and helpers – once it's been sanded and varnished it will be a masterpiece! Any offers to finish it off?
